WOODMONT ROD AND GUN CLUB TO **REBUILD ITS HOME**

Lets Contract for New Structure to Cost \$75,000.

MANY FISH PLANTED

Nearby Streams Are Being Stocked With Bass And Trout.

By DICK PEED.

and Gun Club, on the Potoriuc above Harpers' Ferry, which was destroyed by fire a few months ago, is to be sebuilt, a contract for a new building, to cost \$75,000, being let a few

The club, one of the most exclusive and pretentious organiatzions of its kind in Eastern United States. carries numerous Washingtonians on

The fire occurred late last fall and was a total loss, many local sportsmen being losers of expensive fishing tackle and hunting equipment.

Acting Director Leach, of the Bureau of Fisheries, will exhibit and explain the moving pictures of salmor fishing in Alaska and the salvaging of fish along the Mississippi, to be shown at the Sylvan Theater, near the Washington Monument, the latter part of this month.

The Potomac Anglers' Club has about completed the spring planting in the local waters Rainbow trout to the number of 18,000 were placed in Cameron's Run, the spring-fed stream that supplies the water for the city of Alexandria.

In Goose Creek, W. P McKinney and J. Powell placed 3,000 smallmouth fingerling bass and 10,000 brown trout, a species that grows much larger than the rainbow variety. Historic. Bull Run will receive 10,000 of the rainbow variety with in the hext week or two, and the three streams will perhaps be closed to fishermen at the end of the present season, to allow the fish to mature unmolested

The U. S. Fish Commission officials state that brook trout are in the up-per waters of Difficult Run in con-siderable numbers and of good size. We would suggest that some of the local trout fishermen try their luck in the vicinity of Herndon and on down to within a few miles of the mouth of the stream when the open

On a recent trip to the shallow waters of the Potomac a short dis-tunce above Cabin John Bridge, De-Witt Leach caught four Mississippi thish that weighed 8, 10 1/2 11 and

Edgar Lyon has gone to Aquia

Al Reinberg and Edwin Burroughs bave made extensive repairs on their boathouse at Catoctin in anticipa-tion of the opening of the bass sea-son.

The Shenandoah Rod and Gun Club, with a 2,100-acre site on the south bank of the river near Harpers Ferry, is a newly formed organization in which several Washington sportsmen have recently taken an interest. The land is well en an interest. The land is well adapted to the intended purposes, and the promoters are confident of suc-cess for the new organization.

Every year thousands of rock fish and olg-mouth bass are taken along the seawall of Potomac Park weigh-ing from two to four ounces. Every one caught is a violation of the law as well as inexcusable destruction. Few real sportsmen want to destroy a day's sport for the small boy, but when you see big strings of these game little fellows in the possession of a grown-up man, don't you feel like prosecuting? In a couple of years fish like these will have become two-pounders, and furnish real sport to the fellow catching them as well as fine food
